As of July 1, 2010 the total population in Nunavut was estimated at 33,220, an increase of 1,026 people or 3.2% from a year ago. Although there were more males than females in July 2010, the female population increased more rapidly than their male counterparts from July 2009 to July 2010.

Nunavut has a young population. In July 2010, an estimated 10,470 people were under the age of 15, representing a third of the territory's population. There was a large increase in the 55 to 59 age group at 12.3 % from July 2009 to July 2010.

Note:Postcensal estimates are based on the 2006 census counts adjusted for net census undercoverage and for the estimated population growth that occurred since that census. Intercensal estimates are based on postcensal estimates and data adjusted for net census undercoverage of the censuses preceding and following the considered year. Population estimates are final intercensal from 1971 to 2006, final postcensal for 2007, updated postcensal for 2008 and 2009 and preliminary postcensal for 2010.
